Projects

Clever Chef – Restaurant Website
- Designed and developed a fully responsive, multi-section restaurant website using React.js, HTML, and CSS.
- Built modern UI components with smooth navigation and a clean, user-friendly layout.
- Implemented interactive features like hover effects, category filtering, and responsive forms.
- Ensured mobile and desktop compatibility using custom styles and media queries.

Secure Cloud Storage with Sanitizable Access Control
- Designed a secure cloud storage system with encryption and strict access controls.
- Developed the frontend using HTML and CSS for a responsive UI.
- Implemented data sanitization to detect and remove malicious or unauthorized content.
- Built with ASP.NET (C#) for the backend and SQL Server for database management.

Skills
- Frontend Technologies: HTML, CSS, React.js
- Backend Technologies: Node.js, Express.js, MongoDB
- Programming Languages: JavaScript
- Tools: Visual Studio Code, Git, Chrome developer tool
